AIRBNB CEREAL DEVANAGARI

Airbnb Cereal Devanagari is a typeface optimised for text and UI settings. Therefore, it can be used in display contexts, at large body sizes but also in contexts where smaller body sizes is required. On low-resolution screens, however, typesetting below 12 points should be avoided to preserve the legibility of the font. Airbnb Cereal Devanagari has a character set which includes Devanagari numerals, punctuation and contextually changing vowel signs. It covers the following languages:

Hindi, Konkani, Marathi, Nepali

Airbnb Cereal Devanagari has OpenType features that make the font responsive to its context. They are activated differently across different software and may not all be supported in all platforms. Microsoft PowerPoint and Excel, for example, don't have standard OpenType feature coverage.

<p>Required ligatures <i>On by default, cannot be turned off.</i></p>	<p>क्ष ज्ञ</p> <hr/>	<p>→</p>	<p>क्ष ज्ञ</p> <hr/>

LOCALIZED FORMS - MARATHI NUMBERS

Airbnb Cereal Devanagari has the capability of adapting to its language context.

Localised Marathi and Nepali forms, both numerals and conjuncts, can be accessed by applying the correct language tag in supporting OpenType environments.

Change language tag in Adobe InDesign through the languages drop-down menu. This can be found in the top menu when the workspace is set to Typography.

InDesign: (Window > Workspace > Typography)

STYLISTIC SET 01

Airbnb Cereal Devanagari has two glyphs with alternate shaping. These can be activated in the OpenType panel, by selecting stylistic set 1.

NB: Stylistic sets are not available in Adobe Illustrator or Photoshop at the time of writing.

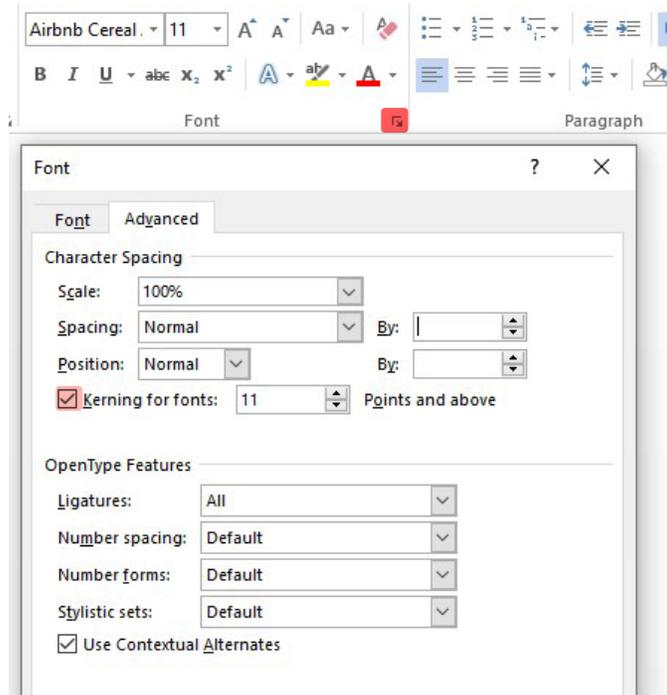

Enable stylistic set 1 in Adobe InDesign through the Character panel as shown.

InDesign: (Window > Type & Tables > Character)

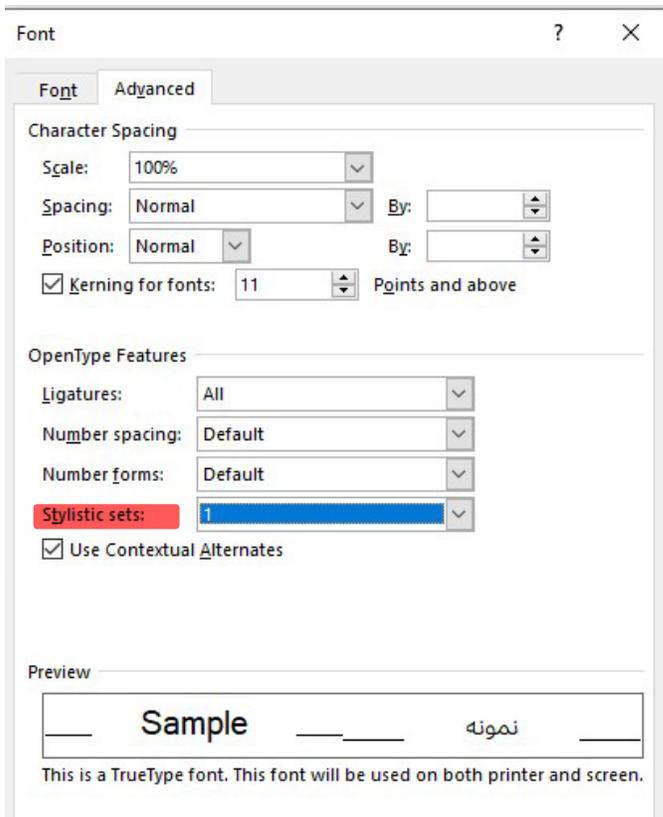

Microsoft Word supports only some of the OpenType features that Airbnb Cereal Devanagari is equipped with. Kerning, tabular numerals and ligatures are available for activation. The rest, however, are not accessible in Microsoft Word.

Enable kerning in Microsoft Word through the advanced font options as shown.

MICROSOFT WORD

Enable stylistic sets in Microsoft Word through the advanced font options as shown.
